

An Easter Suit Guaranteed for Six Months' Wear

AN Easter suit should look well—and it should wear well, too.

Dubbelbilt suits, besides handsome fabric, good style, careful tailoring, have special reinforcement at every point of wear and strain. That is why every Dubbelbilt suit carries the famous Dubbelbilt guarantee: *Six months' wear, without rip, hole, tear, or we will repair the suit free.*

This picture shows only one of the attractive new models of Dubbelbilt suits. In sizes for boys from 6 to 18 years old.

KAHN'S

DESLOGE, MO.

MORE MISSOURI COWS ON THE HONOR ROLL

From eleven to forty-seven cows! That indicates how the honor roll of Missouri purebred cows has grown in the last six months. In October there were eleven cows that in the two days while on the official test produced over three pounds of fat. During February the same number of cows produced over four pounds of fat, and forty-seven cows owned by sixteen different breeders produced over three pounds.

Viola's Golden Gypsy, a Jersey owned by Longview Farm, again heads the list with a production, during two days, of 5.19 pounds of fat from 95.3 pounds of milk. Raleigh's Graceful Queen, owned by C. S. McCoy of Perry, comes second with 4.84 pounds of fat from 96.3 pounds of milk. Third is La Grass' Choice Maid owned by S. R. Head of Hannibal, with 4.80 pounds of fat and 74.4 pounds of milk.

The high Holstein cow, June Empress Pontiac, owned by C. E. Driver of Crescent, produced 3.57 pounds of fat and 119.7 pounds of milk. Inka Beauty Barber, a barn mate, comes next with 3.40 pounds of fat from 114 pounds of milk.

Each month this fall and winter has seen an increase in the number of cows on test and in the Honor Roll. This month, with a total of 233 cows on test in the herds of thirty-five Missouri breeders, stands out as the best month. Breeders of purebred cattle can get the attention of the great dairy cattle market. Missouri has in the Southwest, by demonstrating through official tests the excellent qualities of our dairy cows. Instead of thirty-five breeders there should be at least twice as many doing this work. The Dairy Department of the University of Missouri College of Agriculture sends out men to conduct these tests and charges the breeder only the actual cost of the work. An excellent illustration of the value of Registry of Merit work in a herd was shown in a recent dispersal sale. The six Register of Merit cows sold for \$2445, or an average

of \$407.50. It also raised the prices of the young stock out of tested dams. Cows without records could not have sold within one to two hundred dollars of what these brought. It will only take a postcard addressed to the Dairy Department, Columbia, Mo., to bring you information as to the cost and method of beginning this work.

From the monthly showing made by a large number of cows on yearly test, at least a few State records will be changed. The following gives an indication of what a few cows are doing.

Peter Cologna & Sons, Marshfield, have a number of Guernseys which are doing fine. Fern Lily of Fairview, in 182 days has produced 5218.9 pounds of milk and 242.71 pounds of fat. Mary Ann of Fairview, 2232.7 pounds of milk and 125.25 pounds of fat in 89 days, while Lucy of Fairview in 184 days has 178.14 pounds of fat to her credit. L. S. Meyer, Springfield, another Guernsey breeder, has Duchess of Oakwood's Pride, which has produced 7135.9 pounds of milk and 371.58 pounds of fat in 329 days. Princess Louise of Oakwood in 303 days has produced 5294.1 pounds of milk and 257.71 pounds of fat. Pauline Clyde Albin 2d, a Holstein owned by C. E. Driver, of Crescent, in 184 days has produced 6821.1 pounds of milk and 244.42 pounds of fat. Lewismonte Traer of DeKol has 6213.1 pounds of milk and 191.41 pounds of fat to her credit in 184 days.

During the month a number of excellent seven-day Holstein records were completed. Clifford Palmer Verita's Pontiac, a senior three-year old owned by John F. Blum of Smithtown, broke the State milk record for her class and goes into second place in production of fat. Cows of this capacity deserve a year's record. In seven days she produced 659.6 pounds of milk and 21.81 pounds of fat or 27.14 pounds of butter. This breaks the State milk record for cows under three years of age, as well as placing her fourth in class in fat production.

Hematite Hilton, De Kol, a senior two-year old, owned by the Standard

Dairy, Baldwin, produced 474.4 pounds of milk and 16.82 pounds of fat, or 21.02 pounds of butter in seven days. Continuing for 30 days she produced 2073.5 pounds of milk and 68.52 pounds of fat, or 85.65 pounds of butter.

Catarrh Cannot Be Cured

with LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Catarrh is a local disease, greatly influenced by constitutional conditions, and in order to cure it you must take an internal remedy. Hall's Catarrh Medicine is taken internally and acts thru the blood on the mucous surfaces of the system. Hall's Catarrh Medicine was prescribed by one of the best physicians in this country for years. It is composed of some of the best known combined with some of the best blood purifiers. The perfect combination of the ingredients in Hall's Catarrh Medicine is what produces such wonderful results in catarrhal conditions. Send for testimonials, free.

LIVE STOCK MARKET

Today's Receipts

Cattle 4400
Calves 800
Hogs 12000
Sheep 2400

CATTLE—The only change in the cattle situation for the week to date is a general advance of 25c per cwt. on killing steers, the general market otherwise averaging steady with last week's closing prices and while most offerings have sold actively enough, stockers and feeders were the one quality which moved rather slowly at the prices.

Beef steers \$9.50 to \$15; stockers and feeders \$8.25 to \$11.50; butcher cattle \$9.00 to \$13.50; beef cows \$9.50 to \$11; canners and cutters \$5 to \$8; stock cows and heifers \$7.25 to \$9; bulls \$6.50 to \$11.00.

HOGS—This department of the market shows a resumption of activity and part of last week's sharp decline has been regained, the present crest for choice light hogs being at \$16.35 against \$16.00 the low spot late last week and \$16.60 the high time of that period. The advance has been general but movement for the light weight hogs continues much the best as market conditions the previous weeks have shown. Environments of the trade are uniformly satisfactory and while of course temporary setbacks are bound to occur, the outlook is rather favorable.

Bulk of the 160 to 220 lbs., \$15.75 to \$16.25; 230 lbs., \$14.50 to \$15.50; 260 lbs., up to \$13.75 to \$14.50; packers \$12.25 to \$12.50.

Pigs \$12 to 150 lbs. \$15.25 to \$16.00; 90 lbs. down \$10 to \$12.50.

SHEEP—Strength features the sheep and lamb market, prime wool lambs having worked back close to the high point of a few weeks ago, while fat sheep are higher at this writing than any time this year.

Good to choice clipped lambs \$17.75; good to choice wool lambs \$19.25 to \$19.85; medium wool lambs \$18 to \$19. Feeding lambs \$16 to \$17; culls \$12 to \$15. Fat sheep \$13.75 to \$14.25; choppers \$8 to \$10; canners \$5 to \$6.50.

COUNTY SCHOOL NOTES

A fifty-cent dollar is all that the school teachers have been getting for their services in the public interest during the last four years.

That's all the dollars they are being paid with now are worth when the teachers take them into the stores and markets to buy the necessities of life.

The discovery is not new to the teachers. They've been trying to find a way to make the dollar go the full distance, but the dollars will not do it.

"We teachers know the limitations of the dollar we are receiving," a well known teacher remarked, "but the public, our master, if you please, doesn't seem to know it."

"Teachers' salaries have not been raised materially for more than four years. We are living now on substantially the same pay we had four years ago, and that was when the high cost of living first became noticeable. If we were being paid now on the same basis as in pre-war days, we would be receiving twice as much as we were getting in 1915."

A movement is on foot to get the Old Dollar back through a general increase of salaries for teachers in the State for the school year 1920-21. The appeal first will be made to the State Board of Equalization, and a constitutional amendment will be asked for when the legislature meets in 1921.

In the meantime, the hope of the school teachers can only lie in the possibility of food, clothing, and necessity prices coming down.

Miss Della M. Porterfield of the Mostiller school has recently sent in the following news items:

"The Mostiller and Lambeth schools jointly gave a box and pie supper with a ciphering match as an added attraction. This entertainment proved to be a decided financial success, as the sum of \$74.80 was realized. This amount was divided equally between the two schools and will be used in purchasing needed school supplies."

"The Mostiller school later gave a similar entertainment for the purpose of raising money to contribute to the relief of a family in destitute circumstances. At this entertainment the sum of \$27.95 was realized, which, no doubt, was greatly appreciated by the needy family. Probably the main event of the evening was the auctioning of a box of candy to determine the young man who most nearly approached the fabled Adonis. Wm. Doe was the recipient of this distinguished honor."

Supt. O. J. Mathias of the Desloge school has written as follows regarding the work of County School Attendance Officer, R. C. Tucker:

"I have been intending for some time to make a statement regarding the work of our present compulsory attendance law."

In conjunction with our local attendance officer, Mr. Boyer, and County Attendance Officer, Judge R. C. Tucker, we have secured the best attendance record of any year since I have been in the profession. Judge Tucker has made several visits during the year; has conferred with a few negligent parents, and has made arrangements by which several children, in poor financial circumstances, were able to continue their work in school. Mr. Boyer secures a list of absentees each week and calls on parents at once to ascertain the cause of absence.

"The following figures speak for themselves. There has been a slight increase in the total number enrolled during the last three years; yet taking into account the effect of influenza last year, there is a marked increase in the total days attended by all pupils.

1917-18 first five months, 62,582 days

1918-19 first five months 35,771 days

1919-20 first five months 73,468 days

"This shows a gain of 10,886 over 1917-18."

J. CLYDE AKERS,

County Supt. of Schools.

How Diphtheria Is Contracted.

One often hears the expression, "My child caught a severe cold which developed into diphtheria," when the truth was that the cold had simply led the little one particularly susceptible to the wandering diphtheria germ. If your child has a cold when diphtheria is prevalent you should take him out of school and keep him off the street until fully recovered, as there is a hundred times more danger of his taking diphtheria when he has a cold. When Chamberlain's Cough Remedy is given it quickly cures the cold and lessens the danger of diphtheria or any other germ disease being contracted. Obtainable everywhere. (adv.)

HOMES FOR BOYS WANTED

We have on hand a very fine lot of boys of all ages from one month to twelve years of age. We are putting them out in carefully selected homes. They are placed on three months' trial. All it costs to get one is the transportation. References required. For terms, address Dr. C. C. Stahmann, Newstead and Margaretta Avenues, St. Louis, Mo., State Superintendent of the Children's Home Society. 13-21

Chamberlain's Cough Remedy.

The great benefit derived from the use of Chamberlain's Cough Remedy has been gratefully acknowledged by many. Mrs. Benjamin F. Blakeney, Decatur, Ill., writes, "Chamberlain's Cough Remedy is by far the best medicine for colds and coughs we have ever used in our family. I gave it to my children when small for croup and have taken it myself." Obtainable everywhere. (adv.)
